

Join the Auditor General of South Africa as a Senior Manager: **INVESTIGATIONS DATA ANALYTICS** (Development)

PURPOSE OF ROLE

In this role, you will support the organisation that was named the Employer of Choice in 2022* in supporting the Investigations Business Unit (IBU) in its integration efforts with the Regularity Audit Business Units (RABUs) towards clean audit outcomes by pro-actively identifying trends, key risks, red flags, suspicious transactions/ trends relating to maladministration, fraud, corruption and non-compliance in the public sector. This will allow the AGSA to use these emerging trends as well as existing gaps in the IBU's data analytics service offering to develop data analytic procedures to support RABU's (ISA240 audit support) in their goal towards clean audit outcomes.

SKILLS AND EXPERIENCE

We are looking for a seasoned professional with a minimum postgraduate qualification in Commerce or Computer Science, CFE/post grad diploma in forensic accounting/ICFP, at least 7 years post qualification experience in a forensic environment with at least 4 years' experience operating at a manager level, possessing an ACL Certified Data Analysis Certification and an expert at scripting in a forensic/fraud risk environment.

*The organisation was named 'Employer of choice for two consecutive years'.

If this role appeals to you and you want to contribute to ensuring that public funds are spent wisely and efficiently, apply by visiting our website at www.agsa.co.za.

**CLOSING DATE
FOR APPLICATIONS:
31 OCTOBER 2023**
