

AUDITOR - GENERAL
SOUTH AFRICA

MEDIA RELEASE

5 March 2025

AGSA to consider MKP request for investigation

PRETORIA—The Auditor-General South Africa (AGSA) confirms that it has received a letter from the uMkhonto weSizwe Party requesting an investigation into the expenditure incurred in postponing the 2025 national budget. The AGSA will consider the request and respond to the party in writing after following its regulatory requirements and set due process on such requests.

It is important to note that the AGSA conducts annual regularity audits of both the Parliament of the Republic of South Africa and all government departments. If any material irregularities are identified during these audits, they are reported in the audit reports of these institutions, which are tabled publicly in parliament.

It is equally worth noting that the national audit office is committed to carrying out its constitutional mandate in a fair manner, without fear, favour, or prejudice in all audits.

End.
